

REMARKS

On page 3 of the Action, the Examiner indicates that claims 1-6 are allowable over the prior art. Claims 7-9 and 11 have been deleted. Claims 12 and 13 have been rewritten in independent form.

I. The Examiner's Rejections Under 35 U.S.C. §112

The Examiner has rejected claims 12 and 13 under 35 U.S.C. §112, first paragraph, as containing subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention.

Applicants respectfully submit that the rejection is not well-taken. First, it is not clear whether the rejection is a written description rejection or an enablement rejection. More importantly, claims 12 and 13 merely recite certain embodiments already recited in claim 7 and in original claim 10, neither of which was rejected under 35 U.S.C. §112. Applicants therefore ask that the Examiner to withdraw this rejection.

II. The Examiner's Rejections Under 35 U.S.C. §102

The Examiner has rejected claims 7-9 and 11 under 35 U.S.C. §102(e) as being anticipated by *Tomiyama et al.* (USP 6,190,803 B1). The claims in question have been canceled.
